youngstas@vodamail.co.za

CLOSING DATE FOR ENTRIES: **14th October 2017**

ENTRY FEE: **R45.00**

DEFINITION OF TEST

A breed survey is a careful and detailed appraisal of disposition, type and conformation, to determine whether the Boxer is free of weaknesses or faults which could have a negative influence on its soundness, type, working ability and by implication, its suitability for breeding purposes.

It is not a competition

Participating Boxers will be rated (*Excellent, Very Good, Good or Insufficient*) but will not be placed in order of merit.

A Boxer who has been rated at least *Very Good* in both conformation and disposition, will be entitled to the BT qualification after its name.

ELIGIBILITY

Only Boxers registered with the Federation of Boxer Clubs of Southern Africa may be entered for the breed survey, provided that:

- it is at least 15 months old on the day of the survey;
- a veterinary certificate has been submitted to the Federation stating that it is free of heart murmurs, or, should heart murmurs be present, that it has been established by means of echocardiography at Onderstepoort to be due to causes other than aortic or pulmonic stenosis.
- a certificate/report has been received from Onderstepoort indicating that it has been graded for hip dysplasia and does not have a score worse than C2-C2.
- a current inoculation certificate is presented to the officiating steward before the survey providing the Boxer is under 18 months of age

Participation in the survey is voluntary and at the entrant's own risk. The Federation of Boxer Clubs of Southern Africa, its member clubs or any person appointed to officiate at a survey, may not be held responsible for any bodily harm to a dog, its handler, its owner or any other person, which may occur during the survey.

The survey will be held under the rules and regulations of the Federation of Boxer Clubs of S.A.

Copies of the official working trials rules can be downloaded [here](#).

Please bring your own refreshments along.
